Education

University of Illinois Urbana-Champaign

Master of Computer Science

Aug 2022 – Dec 2023

GPA: 3.70 / 4.0

B.M.S. College of Engineering

Bachelor of Engineering in Computer Science And Engineering

Aug 2016 – May 2020

GPA: 3.87 / 4.0

Technical Skills

Programming: C, C++, Java, Python

Web Technologies: HTML5, CSS3, SASS, JavaScript, TypeScript, ReactJS, NodeJS, Redux

Databases: MySQL, MongoDB, Neo4j

Development Tools / Cloud Platforms: AWS, GCP, VS Code, Eclipse, Android Studio, IntelliJ IDEA, Docker, GitHub, Jira, Confluence, BitBucket, Bamboo, Sonar Qube

Areas of Interest: Machine Learning, Artificial Intelligence, Research in Large Language Models (LLMs)

Experience

Verizon

Software Developer

Mar 2024 – Present

Basking Ridge, NJ

- Contributed to the design and development of the platform services website, used by **100+ end users**, by building and maintaining complex UI components in **React** while ensuring cross-browser compatibility and responsive design.
- Mastered **JavaScript, HTML5, and CSS3** to optimize website performance and user experience.
- Prototyped and experimented with design solutions in **Figma**, leading to successful implementation.
- Integrated backend **RESTful APIs** with front-end React applications, ensuring efficient data flow.
- Adhered to best practices in documentation, unit and integration testing, delivering high-quality, maintainable code.

University of Illinois Urbana-Champaign

Graduate Teaching Assistant (CS 409: The Art of Web Programming)

Aug 2023 – Dec 2023

Champaign, IL

- Delivering comprehensive instruction on contemporary web development encompassing foundational web technologies (**HTML, CSS, JavaScript, DOM**), data exchange protocols (**HTTP, JSON, RESTful APIs**), and database systems (**SQL/NoSQL**), with a strong emphasis on front-end development utilizing **React**.

University of Illinois Urbana-Champaign

Graduate Teaching Assistant (CS 498: Cloud Computing Applications)

Jan 2023 – May 2023

Champaign, IL

- Guided over **500 students**, including working professionals, in an online collaborative environment through the practical application and understanding of various AWS services including **EC2, Lambda, S3, DynamoDB, Aurora, ElastiCache**, and more, providing a holistic view of cloud service utilization.
- Proactively assisted students in their hands-on projects using **Python** and **Java**, while also addressing queries on big data frameworks, particularly **Spark, MapReduce**, and **HBase**, and core technologies like **containerization**.

Shell India Market Private Limited

Data Engineer

Sep 2020 – July 2022

Bengaluru, India

- Expertise in the design and development of **SAP HANA** Calculation views, Procedures, and Table Functions (SQLScript) while spearheading 2 Full lifecycle projects.
- Proficient in ETL processes, skilled in SQL querying, performance tuning, and handling large-scale data transformations.
- Assisted end users** with the definition and implementation of technical and business strategies.

Honeywell Technology Solutions Lab Pvt. Ltd

Intern Bachelors Software Eng

Jan 2020 – July 2020

Bengaluru, India

- Implemented efficient coding practices and conducted code reviews, resulting in a 20% increase in team productivity and adherence to coding standards.
- Was introduced to **agile methodology** and handled the design and implementation using **C#, JAVA** and **Neo4j**.

Projects

Tutorly | React, Springboot, Node.js, SQL

Dec 2022

- A virtual peer tutoring platform for students, created by students enabling streamlined session bookings.
- Hosted on **Gitlab and Azure**

Tokyo Olympics Schedule viewer | React, SQL, Node.js

May 2023

- Engineered an intuitive Full-stack website offering comprehensive overviews of events, schedules, venues, medal counts, and more for the 2021 Tokyo Olympics. Hosted on **Google Cloud Platform**.
