Education

University of Illinois Urbana-Champaign

Master of Computer Science

Aug 2022 – Dec 2023

GPA: 3.70 / 4.0

B.M.S. College of Engineering

Bachelor of Engineering in Computer Science And Engineering

Aug 2016 – May 2020

GPA: 3.9 / 4.0

Technical Skills

Programming: Java, Python, SQL, JavaScript (ES6+), TypeScript

Web Technologies: React.JS, Redux, Spring, Flask, NodeJS, HTML5, CSS3, SASS, RESTful APIs

Databases: MySQL, PostgreSQL, MongoDB, SAP HANA, Neo4j

Tools & AI: AWS, GCP, Azure, Docker, Git, Figma, Jenkins (CI/CD), GitHub Copilot, Gemini, LangGraph

Interests: Machine Learning, Retrieval-Augmented Generation (RAG), Large Language Models (LLMs), Cloud Computing

Experience

Intact Insurance Specialty Solutions

Jan 2026 – Present

Software Engineer, Frontend

Remote, US

- Developing and maintaining responsive, accessible UI components for a high-traffic insurance platform using **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Collaborating with product and backend teams to implement complex workflows for policy submissions, quotes, and account management, ensuring a seamless user experience.

Verizon

Mar 2024 – Dec 2025

Software Developer

Basking Ridge, NJ

- Engineered a **React**-based self-service portal supporting **12 platforms and 60 applications**, streamlining user access management and application onboarding.
- Scaled platform operations to handle **5,600+** automated requests for **4,000+** users, reducing average request completion time from days to minutes (**a 98% reduction**).
- Contributed to full-stack development by architecting complex **SQL queries** and relational schemas to support new features; developed and integrated **Python APIs** with React to optimize data flow for **33,000+** user sessions.
- Translated user-centered designs from **Figma** into production-ready features while maintaining high-quality code through **unit and integration testing** and Agile practices.

University of Illinois Urbana-Champaign

Aug 2023 – Dec 2023

Graduate Teaching Assistant (CS 409: The Art of Web Programming)

Champaign, IL

- Delivering comprehensive instruction on contemporary web development encompassing foundational web technologies (**HTML, CSS, JavaScript, DOM**), data exchange protocols (**HTTP, JSON, RESTful APIs**), and database systems (**SQL/NoSQL**), with a strong emphasis on front-end development utilizing **React**.

University of Illinois Urbana-Champaign

Jan 2023 – May 2023

Graduate Teaching Assistant (CS 498: Cloud Computing Applications)

Champaign, IL

- Guided over **500 students**, including working professionals, in an online collaborative environment through the practical application and understanding of various AWS services including **EC2, Lambda, S3, DynamoDB, Aurora, ElastiCache**, and more, focusing on architecting resilient and scalable cloud-native applications.
- Proactively assisted students in their hands-on projects using **Python** and **Java** involving distributed big data frameworks, particularly **Spark, MapReduce**, and **HBase**, and core technologies like **containerization**.

Shell India Market Private Limited

Sep 2020 – July 2022

Software Engineer (Data)

Bengaluru, India

- Expertise in the design and development of **SAP HANA** Calculation views, Procedures, and Table Functions (SQLScript) while spearheading for 2 full-cycle enterprise projects.
- Developed and customized **UI models and web interfaces** for data governance platform, ensuring seamless user interaction with complex backend data structures.
- Collaborated with business stakeholders to translate functional requirements into technical specifications for **scalable data-driven solutions**.

Honeywell Technology Solutions Lab Pvt. Ltd

Jan 2020 – July 2020

Intern Bachelors Software Eng

Bengaluru, India

- Implemented efficient coding practices and conducted code reviews, resulting in a 20% increase in team productivity and adherence to coding standards.
- Was introduced to **agile methodology** and handled the design and implementation using **C#, JAVA** and **Neo4j**.
